***Election/Restrictions***

1. Restriction to one of the following inventions is required under 35 U.S.C. 121:

I. Claim 1, 3-11, 13-15, 17, 20-26, drawn to messaging system, classified in class 455, subclass 412.1.

II. Claim 28, 30-33, 35, 37, 39 drawn to remote data accessing system, classified in class 709, subclass 217.

Inventions are distinct, each from the other because of the following reasons:

Inventions I and II are related as subcombinations disclosed as usable together in a single combination. The subcombinations are distinct if they are shown that at least one subcombination is separately usable. In the instant case, invention II has separate utility such as accessing remote data via Home Agent Address Management Server and Home Agent Server. See MPEP § 806.05(d).

Because these inventions are distinct for the reasons given above and have acquired a separate status in the art as shown by their different classifications, restriction for examination purposes as indicated is proper.

Applicant is advised that the reply to this requirement to be complete must include (i) an election of a species or invention to be examined even though the requirement be traversed (37 CFR 1.143) and (ii) identification of the claims encompassing the elected invention.
